Cheap & Convenient Building,

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has a prior stock, so that he is now able to supply to those about to build, the best articles of Door Frames, Window Frames, Sashes, an l Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systematized that only a small margin is left in working beforehand, the cost of sawing-house, when the work is of a uniform description is very small.

Any one interested can examine specimens of the work at the factory, near the Rose Plane, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained on large or small notice.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them in the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and is well organized in the business that no man at this time think of building in the old and slow and imperfect methods.

OLIVER A. LUNT'S Dancing Academy!

Lewis' Block—Main St.

JUVENILE CLASSES will commence on WEDNESDAY, Sept. 10th, at 2 o'clock P. M. Adult Classes can be formed to suit the convenience of pupils. The subscriber is most happy to inform his patrons, and the public generally, that he will present to them the latest and most fashionable styles of Dancing now taught.

Among the new Dances the several which are now taught in the best Schools of London and Paris. These include the Varsovienne, Polka, Redowa, Waltz, Esmeralda, and the various forms of Polka and Redowa Dances.

New Styles of Quadrilles and Waltzes will also be introduced, which, with the superior advantages offered pupils for practice, will, it is hoped, meet the approbation of all.

For terms, please apply to the subscriber at the Hall, Lewis' Block, Main street

Sept 4th OLIVER A. LUNT.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired and refitted, and furnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.

Bangor, Feb. 25, 1858.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

CHEAP AND SAFE LIGHT.

NEWELL'S PATENT SAFETY LAMP AND LAMP FEEDER. Warranted to prevent all accidents from the use of Burning Fluid, Patent Oil, Lorin Oil, Camphene and all other explosive compounds used for the production of light. This invention is applied to Common Field, Solar and Camphene Lamps, Lamp Feeders, Finial Holders, Lanterns, &c. &c.

We respectfully invite the attention of the public to Newell's improved Solar Hall Lamp in the argand form, which gives a steady, brilliant flame, the nearest to gas that has ever been produced, the cost of burning being less than one cent an hour.

These Lamps are particularly adapted for Churches, Hotels, Factories, Stores and Parlors. Oil Solars can be altered using the same burner. Common Fluid Lamps can be changed to Safety Fluid Lamps.

Professor Silliman says, "All the so named burning fluids are explosive, whether liquid or colored, and do not stand the test they are not so to deceive the public, but with the principles above named, I should have no hesitation to use it, and I do with entire confidence recommend it to my friends and others who consult me on the subject, always protecting against the unguarded use, which has produced so many disastrous and fatal results."

These Lamps have been extensively used in all parts of the United States for more than four years, and there has not the slightest accident occurred with them. They have the sanction of the greatest scientific skill of the country, such as Prof. B. Silliman, Prof. J. Robb, Dr. Charles T. Jackson, Dr. A. A. Hayes, &c. &c.

We keep constantly on hand the best Burning Fluids.

ST. MEON, VALENTINE & CO.,

No. 35 Broad Street, Boston.

Oct. 20, 1856—Dr. Sir, July 1, 1856—The subscriber having for several years past manufactured Varnishes for Messrs. Bigelow & Dean, of Newark, N. J., takes this method to inform those interested in the sale and consumption of Varnished, that he is now engaged and furnishes with Messrs. Bigelow, Valentine & Co., of the same place, their Varnish retail business, and with pleasure would refer for the time the past, to any friends and the public.

JOHN BANCROFT.

DISEASES SUCCESSFULLY TREATED.

REMEDIES, CURES PERFORMED.—*Persons afflicted and of Caution.*—Encouraged by the very liberal patronage bestowed upon me by my friends and the public, during the last few years, and the extraordinary success which has attended my efforts for the cure of the afflicted, I am determined not to relax my exertions to further merit, but rather prepare myself for some yet above my undertaking.

That diseases heretofore considered incurable can be conquered, I am abundantly sure from my own experience. To name a few particular cases, I might mention Mrs. P. cured of vomiting blood, after having been given up by her family; a female in Dedham, Mr. T. cured of a violent eruption over the head and parts of the body, and pronounced by the doctors the best physician in Norfolk county. Mr. B. cured of consumption. Mr. B. of liver and kidney complaint. Mrs. T. of cancer in the breast, as large as a quart bowl. Mr. B. of secondary symptoms, after having been brought near the grave under the treatment of other respectable physicians. Miss M. of consumption. Mr. C. of very alarming catarrhal symptoms and I might go on with such cases and fill columns. I will give any one the full name of any of the above, if they will apply at my office.

Ores, Lands, Gold, &c.—I do not make a business of sending medicines to agents, but rely for my reputation and cures upon being able to prescribe the medicines myself. Persons can consult by letters and have their medicines sent by express.

Ladies—I am always glad to give freely, personal calling upon me. Do not feel under any obligations to take medicines, unless they choose to do so.

Words of Caution—To avoid an age of new names among most good there is much humbug. Be not over anxious to be experimented on. For ten years I have found my remedies safe and effectious, and the public may rely that they will do what is promised for them.

Counterfeits are in all curable cases. The person gives my remedies a fair trial without receiving counterfeits, and is rewarded a thousand fold cured by some other physician, I will refund all the money paid for it.

A full description of my medicines, and many certificates of remarkable cures, together with much information, can be had by applying at my office. My book sent by mail to those who enclose a stamp.

The following are my advertising orders:—

1. To spear, Indian Doctor, so much celebrated for his remarkable cures, may be consulted at his office, No. 18 Knee and street, from 9 A. M. to 2 P. M., upon all diseases and conditions of the human system, free of charge.

As usual, Dr. Spear gives special attention to chronic forms of disease, Humors in the Blood, Dyspepsia, Consumption, Skin Diseases, Urinary difficulties, abnormal condition of the Kidneys, Liver and Heart, Rheumatism, all female diseases, especially Prolapsus Uteri, and unnatural stoppage of the menses, Weaknesses and Debilities.

Dr. Spear is now being visited by thousands of patients every month, some of whom travel hundreds of miles to consult him and obtain his remedies.

Dr. Spear, will, we insert a case in every curable disease. After giving his remedies a fair trial, if a cure is not effected, he will pay one other physician who will effect a cure, his bill, not exceeding $100. Persons at a distance can consult him by letter, enclosing a stamp to pay the postage.

E. D. SPEAR, Indian Doctor,
No. 18 Knee and St., Boston

THE PARLOR SEWING MACHINE.

This new and beautiful machine, designed for every variety of family sewing and Tailors' Work, forms each stitch the same as sewing by hand. The superiority of this machine over every other is at once apparent from the fact that it actually sews, making, with stitches of peculiar, firm and reliable character, and with the same facility, sewing a person is accustomed to the stitch in the work or fabric required. Every part is perfectly simple and easily understood; no understand to read, and rarely needs to take care of, as on other machines is generally needed in threading the needles; no reckoning spools, but using a single thread, and the needles threading from sides, it at once becomes the lady's ready seamstress at will, and the most safe substitute for a dozen hands. With the turn of a single screw, each different stitch is obtained, in which a person with the directions sent soon becomes expert. Hemming, basting, fagoting, felling, tucking, braiding, gathering, quilting, or whatever, but reel stitching. Every machine is warranted perfect, and finished up in a variety of elegant styles, truly making an ornamental piece of furniture. Manufactured only by Howard & Davis, Exhibition and Salesroom, 262 Washington Street, Boston.

AMBROTYPES!

Rooms—No. 1 Main Street.

THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon the plain glass, upon which is placed another glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to damage from any source. The pictures are not reversed, are free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine the pictures at our Rooms,

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be obtained only at our Rooms.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every soft or fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being stronger, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a cause of constant vexation and loss. The entire reliability of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a fine and durable construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operating machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of I. M. Singer & Co's. Gazette, a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

FRIDAY, NOV. 7, 1856.

The reports of last evening, with those heretofore received, render it nearly certain that Buchanan is elected, as the reports from Kentucky and Tennessee are strongly in favor of the Democrats, and Illinois is also probable for Buchanan.

The following States will confidently put down for Fremont, viz:—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York Ohio Michigan, Iowa, and Wisconsin, having an aggregate electoral vote of 114.

The balance of the States (except Maryland which goes for Fillmore, and California, not heard from,) were considered in Boston yesterday as nearly certain for Buchanan—giving him 170 electoral votes, or 21 more than a majority.

We do not consider Illinois as certain, however.

We cannot yet give the popular majorities in many of the States out of New England; but it is probable that the largest can be majorities in New York, Ohio, Michigan, Wisconsin, and Iowa will largely overbalance the Buchanan majorities in Pennsylvania, New Jersey, Indiana and Illinois—leaving the New England majority of 130,000 as a clear, Northern majority against the pro-slavery and Border-ruffian party, and rendering it quite certain that James Buchanan falls not only in a minority in the North but also in the Union.

LATER.—(Good FRIDAY MORNING.) A despatch at 12 last night makes it probable that Illinois goes for Fremont, increasing his vote to 22, and reducing Buchanan's to 159. If this is so and Kentucky goes either Know-nothing or Tennessee, the election or defeat would depend upon the vote of California. It would leave Fremont, also, with only the vote of Pennsylvania wanting to elect him.]

BURLINGAME'S ELECTION. The Boston Chronicle says that the Boston abolitionocracy has received in this election a blow from which it will not recover. Having put up against Mr. Burlingame a wealthy citizen or man than such a party ever nominated—a man who could hardly have been expected to stand in such a position any more than he could have been expected to rob sheep-folds or hen-roosts, the opponents of Fremont drew hundreds of votes which would not have been given to an ordinary candidate. The aristocracy of the six northern wards, which can hardly survive any man for making himself obnoxious to Mr. Appleton. He commanded the whole part of the Daily Advertiser in its editorial and acting editor, by reason of his pecuniary relations to it. The Boston aristocracy agreed to give him the Irish vote in consideration of receiving the straight Whig vote of Greene in the 4th District, and they did it. The intense Catholic Fillmoreism also voted for him, precisely to defeat Burlingame. But in spite of all, Burlingame is elected. Here is glory enough for one day.

LOOK AT IT. The vote of old Massachusetts, nearly complete, foots up as follows: Fremont 192,011; Buchanan 57,373; Fillmore 8,694. Fremont majority over Buchanan SIXTY-FIVE THOUSAND. Clear at last!

Fremont's plurality in Massachusetts is now reported at seventy thousand, and his majority over all upwards of 60,000.]

The State Senate of Massachusetts stands—Republicans 26; Democrats 5. House, so far as reported, 266 Republicans to 10 Democrats, Whigs, &c.

For Governor, the vote stands, Gardner 39,624; Rush 30,847; Gordon 5,878. Rest 5,744. These returns are but partial, however. Gardner's vote will reach 50,000.

NEW YORK.—We cannot yet state the majority on the Presidential ticket, or for Governor, although there seems no doubt of King's election. We do know that there is enough of the slaveholders, Benatus Brooks is down at the bottom of the list, below both the Republican and the democratic candidates.

The democrats claim seven of the members of Congress as certain for them, and several others as probable. Burroughs is the only elector of Washington Hall in Niagara district—a gratifying result.

NEW JERSEY. The reports in the evening papers of Wednesday were that Bidleman's plurality would not probably range higher than from 3000 to 6000, and a large part on of this obtained in Newark, formerly a strong Whig city.

Dr. Newell, the Republican candidate for Governor is elected—the having been a union upon him with the Fillmore men. It is known conclusively that the Fillmoreites are responsible for giving the electoral vote of that State as well as others to the pro-slavery candidate.

Michigan looms up nobly in the North west. She has given a very large majority, 20,000 is claimed) for Fremont, and elects a full Republican delegation to Congress, which is a gain of one member. But this is not all. She has elected a Republican Legislature, who will give to Gen. Cass, the prince of loughfaces, leave to stay at home.

Messrs. Howard, Walbridge, and Walton are re-elected to Congress, and Leach (Rep.) in place of Peck, (Dem.)

A GLORIOUS ENCOURAGEMENT FOR ANOTHER OF OUR WASHBURNS. A despatch last night from Chicago states that Hon. E. B. Washburn is re-elected in the First District of Illinois, by the enormous majority of *eleven thousand five hundred.*

It is gratifying to us to be able to announce the defeat of Solomon G. Haven for Congress in the Buffalo district of New York. Although his successful is a democrat, he is at least an open enemy, and has not been guilty of sinking principles for fraction, while professing all his predecessor maintained.

A PURE SOUTHERN OLIGARCHY. The Charleston Mercury proposes to dispense with the office of President in the contemplated Southern Confederacy of Slaveholders. It holds it "absurd to suppose that such an office is necessary to the sanction of the laws of such a government as for the conduct of its foreign affairs." All these things the Mercury sees could be easily arranged. These Southern gentlemen are true to their instincts.—They desire to live under a pure oligarchy, governed by a small, aristocratic slaveholding *noblesse*. There never was a crop of real democratic blood in their veins, and they have just elected a President eminently suited to their order, if we may believe his own words.

The Bangor Journal of yesterday treats its readers with various dirty allusions in reference to the portrait of the Goddess of Liberty on the flag of the Fremont Association. They are entirely characteristic of the sheet, and we have no doubt its readers appreciate them.—*Some* of the patrons of that paper may relish such stuff in common with its infamous abuse of the clergy; but we think others may have different tastes.

The Fillmore men, as is known, and yet denied, helped Buchanan to carry Pennsylvania and Indiana. By refusing to support a Union ticket they gave New Jersey to Buchanan.—Thus they make mortar and carry the hod for those who are building a Pro Slavery Temple.

THE SPIRIT OF '76. In Ward 3 of this city on Tuesday, nine old gentlemen came to the polls in one carriage at the same time, and voted the Fremont and Dayton ticket, the united ages of the nine amounting to *seven hundred and nine years.*

NEW YORK CITY. The city of New York contains 137 polling places, and the District Attorney is of the opinion that "a body of 250 men, by each voting several times among these precincts, can alarmingly swell the aggregate vote of the city." We think so, too.

In 1852, the combined Whig and Free Soil vote of the New England States was 208,431, against 89,491 for Mr. Pierce. Majority against Pierce 19,000

Now the Fremont majority in New England over Buchanan is at least ONE HUNDRED AND THIRTY-FIVE THOUSAND—showing a purely free-soil gain of 116,000.

ILLINOIS. Three of the Republican members of Congress from Northern Illinois have majorities, respectively, of 12,000, 11,500, and 9,000—the second being Hon. E. B. Washburn. We gain two, if not three, members in the State.

EXCURSION TICKETS. We are requested to say that parties holding excursion tickets of the Montreal celebration, are allowed to return free at any time during the following week, on the line of the Grand Trunk Railway.—*State of Maine.*

Samuel S. Crocker vs. Merrill S. Buck.—This case occupied the day. Verdict for Pl'ff for amount of damage.

Peter Poor for pl'ff. Hiram R. Cushing.—Lien claim for Lumber & materials used in the erection of a Shop in Newport. Verdict for Pl'ff for amount of claim. Whitney for Pl'ff. Briggs for Def't.

SPECIAL TRIAL.

Samuel Hazeltine vs. Samuel J. Miller.—Case prosecuted for Josiah Rogers. It is for cutting and hauling Lumber on the Goddard tract in Edinburg, in 1855, under contract with William R. Miller, as agent for Def't. Balance of claim $637 05, and interest. Defence, that William R. Miller made the contract for the owners, and that the Def't was not the owner of the tract, and that Wm. R. Miller and another are liable. E. & G. Kent for Pl'ff. Peters for Def't.

ANOTHER "HEAVY OPERATION." The Baltimore Patriot of Saturday mentions the arrival in that city of Rufus Keller, one of the firm of Jacks, Keller & Co., of St. Louis, who was arrested in that place on the requisition of the Governor of Maryland. The prisoner is accused of having for some time past, carried on a bold game in the cities of Baltimore, New York and Boston, by which certain merchants are learn to the tune of $150,000. The Patriot reports the following:

One of Keller's transactions, which occurred shortly before his arrest, was the purchasing, in the city of St. Louis, from the American Fire Company established there, bills to the amount of $15,000. These he sold, some of them for $4.63 worth $10 and $15. Among the persons in our city who have been duped by this accomplished villain are Turnbull, Slade & Co., $7000; Shaw, Frick & Co. $5000; Stein & Bro., $10,000; Oram & Hopkins, $5000; Murdock & Co., $5000. The same game he practiced in this city was also successful in New York and Boston, and some of the prominent firms in those cities are large sufferers.

GENUINE TIME. It is recorded of a minister, in the early settlement of this country, that he broke off in the midst of a sermon, and exclaimed

"I guess you are all asleep, ain't you?"

Upon hearing this a young man rose in the midst of the congregation, and said—

"I guess we ain't half asleep!"

An action was instituted against the offender, and he was brought up to trial for speaking in "season time." When the county was about to be adjudged, the prisoner gained his liberty and his case, overthrew the logic of the prosecution, by declaring to their honors and the jury, if they had one, that he had not spoken in "season time," but in "guessing time." The judge let him go in hurry.

HORRIBLE AFFAIR.—The Iowa Capital Reporter gives an account of a murder committed in Poweshiek County:

"Some two weeks ago a farmer of that county, on going into his corn-field, where the corn had been shocked about a week previously, noticed a very offensive smell; and looking to ascertain whence it proceeded, removed a corn-shock and discovered under it the body of a young woman, with shot-wounds and marks of violence. In prosecuting a further search, the body of a young man, terribly mangled was found under another shock. Suspicion at once rested upon two young men who had passed through there a short time since, and on tracking their course strong evidence against them was found, where they had camped or stopped to feed their horses. Among other things was an ear-drop, found in a bottom of a creek, corresponding with one remaining in the murdered lady's ear. We believe that measures have been taken for the pursuit of those men, whose route has been pretty well ascertained."

THE VOTE OF MAINE. The Portland Advertiser thus speaks of the high position taken by the intelligent reflecting people of Maine upon the great political question of the times:

The result justifies our confidence. Here we have the "sober second thought" of the masses ratifying and emphasizing their first judgment. They fought the September battle on *principle*, and now, will not the least regard to the prospects in other parts of the great arena, they proclaim their steadfastness in even louder and heartier terms! So much for a cause enthroned above the shifting courses of expediency. So much for a reading, thinking people, that can give a reason for the faith that is in them.

HOW THEY PROPOSED TO DO IT.—A Missourian, who is, however, a free State man, becoming aware of a plan on foot to send a heavy illegal vote into Southern Illinois, from the State of Missouri, where it is not needed, on the fourth of November next, wrote as follows to the editor of the Alton Courier:

"I wish through the columns of your widely circulating paper, to advise the free voters of Illinois to take such measures as may seem most proper to prevent the *importation* of voters at the November election.

"I am well satisfied, by indications I observed in Jefferson city, that it is the intention of *some* leaders in the Border Ruffian party, to practice the most stupendous fraud in the Southern part of your State, and by that means carry it for Buchanan and slavery."

A SOUTHERN VIEW OF DISUNION.—This morning, we learn, an intelligent gentleman from Mississippi, conversing on political topics with one of our own citizens, when the New Yorker asked how far the crazy disunion movement of Wise, Brooks Keitt & Co., would be likely to go in the event of Fremont's election. Said the Mississippian:

"The movement may or may not extend to the raising of troops. If it should, it will amount to nothing. I am a Southern man, and shall vote for Mr. Buchanan, but I tell you now, as a Mississippian, that if Fremont should be constitutionally elected, I shall be ready for one, to shoulder a musket and march to Washington to protect him in his constitutional rights, if it should be necessary, and there are thousands of Southerners who are ready to do the same. More than that, I am free to say to you, that I know Col. Fremont personally, and know that if he is elected, he will not suffer any constitutional right of the South to be infringed.—*N. Y. Post.*

LETTER FROM AMOS A. LAWRENCE. The following letter from Amos A. Lawrence to a gentleman of Philadelphia, will be read with interest, and will cause some reflection now that the election is over:

BOSTON, Tuesday, Oct. 28.

MY DEAR SIR,—There is to us here an unaccountable circumstance in your politics in Pennsylvania, which, for the good name of the Fillmore party of the State, ought to be explained.

Are these men who refuse to co-operate with all others upon the basis proposed, viz—to give to each of the candidates a number of Electors in proportion to the votes he receives—are these men Buchanan men in disguise, or have they been hired to throw the election into the hands of the Democrats, while calling themselves National Americans?

Here, the conduct of these leaders is looked on with disgust. Professing as they do, to be patriotic men, they seem to be plotting to betray the cause which we all have so much at heart.

With great regard, yours truly,

AMOS A. LAWRENCE.

HORRIBLE ACCIDENT.—*Boy Eaten by a Bear.* Near Rocky point, in Greenbrier county, Va., on Thursday week a bear decoyed one of Wm. T. Mann, George Fox, about fifteen years old, was instantly killed and partly eaten up by a large pet bear, belonging to Mr. Mann. The circumstances are as follows: This boy had on the day previous been out hunting and killed a ground-hog, and in carrying or skinning the same got some blood on his clothes. He not having changed his clothes, went about the bear as usual for every one, when the bear lay hold of him around the body, and squeezed him until his ribs were broken, then knocked the boy down with his paw, and eat very nearly all the flesh off his face and legs before he was dead. There being no one about the house but a lady, who was unable to relieve him.

(The late Bishop Hedding used to tell the story of a young minister, who was arraigned before one of the Conferences for indulging to great excess in the sin of exaggeration. Not that he lied, but superlatives slowed so freely from his organ that often great harm was done. He was sentenced to be publicly admonished by the Chair. The bishop administered a severe rebuke, when the young man arose bathed in tears, acknowledged his fault, and his determination to do better. In closing he said, "I regret it. I have wept over it.—Yes, brethren, by night and by day. I have wept on account of it, and I can truly say it has already caused me *to shed barrels of tears.*"

HORSE THIEVES.—Constable Charles H. Hall yesterday morning brought here from Boston (on requisition from Gov. Wells,) Wm. C. Merrit and George E. Burnham, and lodged them in jail; they having, on the 21st of October last, stolen a horse and wagon in Brunswick, from Sam'l R. Jackson of that place, valued at $225. Merrit and Burnham had lived in this city about a year past, but were formerly of Eastport.—*State of Maine.*

The crop of winter apples, says the Boston *Traveller*, will be very short this year, throughout the whole of the United States, and they probably command a higher price than for several years past. We have heard of contracts for Baldwin apples in New Hampshire, to be delivered at the railroad stations, at prices varying from $2 to $3 per barrel. The crop in New England is very uneven this year—more so than we have ever known before.

A skunk once challenged a lion to single combat. The lion declined accepting it.

"How," said the skunk, "are you afraid?"

"Yes," replied the lion, "you would only grin me by having had the honor to fight a lion, while every one who met me for a month to come, would know that I had been in company with a skunk."

RUSSIAN CROWN DIAMONDS. The Crown Treasury of the Czars at Moscow contains precious stones of considerable amount. The two most considerable are diamonds, one the size of a pigeon's egg, rose cut. The Russians have given it the name of Orloff. The other has the form of an irregular prism, and is of about the size and almost the length of a little finger, it bears the name of the Shah, and its history is as follows:

It formerly belonged to the Sophis, and was one of two enormous diamonds which ornamented the throne of Nadir Shah, and which were designated by the Persians by the name of "Sun of the Sea," and "Moon of the Mountains."

When Nadir was assassinated his treasures were pillaged, and his precious stones divided among a few soldiers who carefully concealed them. An Armenian named Shafras resided at that period at Russora with his two brothers. One day an Affgan came to him and offered for sale the large diamond, "the Moon of the Mountains," as well as an emerald, a ruby of fabulous size, a sapphire of the finest water called by the Persians the "Eye of Allah," and a number of other stones, for the whole of which he asked such a moderate sum that Shafras suspected that they had not been honestly come by, and told him to come again as he had not the money in the house. The Affgan, fearing Shafras was going to act with treachery towards him, left the place and could not again be found, although the three brothers made every search for him. Some years afterward the elder brother met the man at Bagdad, who told him that he had sold all his precious stones for 55,000 piastres and a pair of valuable horses. Shafras had the residence of the purchaser, who was a Jew, pointed out to him, and he went and offered him double the price he had given for them, but was refused. The three brothers then agreed to kill the Jew and rob him of his purchase, which they did, and on the following day poisoned the Affgan, and threw both bodies into the river. A dispute soon after arose between the brothers as to the division of the spoil, which terminated in Shafras getting ill of his two brothers by poison, after which he fled to Constantinople, and thence to Dollar, where he made known the riches he possessed and offered them for sale at the different Courts of Europe. Catherine II proposed to buy the Moon of the Mountain only. Shafras was requested to come to Russia, and he was introduced to the Court jeweller. The terms demanded by Shafras were—letters of nobility, a life annuity of 10,000 roubles, and 500,000 roubles, payable in equal instalments in ten years. Count Lacin, who was then Minister, delayed the settlement of the bargain as long as possible, and in the meantime had the Armenian led into such extravagances that he fell into debt, and when the Minister found that he had no means of paying what he owed he abruptly broke off the negotiation. Shafras according to the laws of the country could not leave till his debts should be paid, and the Court jeweller, prepared to take advantage of his embarrassment demanded that the diamond should be valued by him at a fourth of its value. Shafras, however discovered the trap that had been laid for him and disposing of some of the less valuable stones among his countrymen, paid his debts and disappeared. Agents were sent after him, who had open orders to assassinate and rob him, but he escaped them. Ten years after, while he was at Astrachan, renewed offers were made to him, but he refused to enter into any negotiations unless the bargain should be settled at Smyrna. Catherine accepted, and became the possessor of the diamond for letters of nobility, 500,000 roubles, and 170,000 paper roubles, making about two and a half millions of francs. Shafras, not being able to return to his country where he would have had to give an account of two homicides and two fratricides, fixed himself at Astrachan, where he married a country woman of his, and had seven daughters. One of his sons-in-law poisoned him for the sake of possessing his share of his property. The immense fortune which the murderer acquired (from ten to twelve million livres) was divided, and soon spent, by his successors, and several of the grand children of Shafras are now living at Astrachan in abject misery.—*Galignani's Messenger.*

DISCLOSURES OF A LIQUOR DEALER. It is known that most of the alcoholic liquors of common use are manufactured in this country out of poisonous ingredients, and we are never safe in purchasing or using them. In old times men would drink ardent spirits, and live, sometimes, many years under the operation of them. Mr. Delavan, a most respectable gentleman in New York, President of the State Temperance Society, in an address delivered in Albany, dwelt mainly upon the now prevalent adulteration of liquors.

Within a few weeks, he said, it has come to my knowledge, that a person whose considerable establishment, has cash for a mark, per cent and creditable business. He stated that it now took only ten—some say four gallons of pure whiskey—to make a barrel of whiskey of commerce. To these are added rain water camphine and sulphuric; the latter to replace the head destroyed by the water.

He stated also, that brandy made to imitate the real French brandy, and of the most poisonous character, was sold at 37 per gallon costing only 22 cents. That all kinds of wines are imitated so closely that the best judges could not discriminate, costing but a trifle and sold at prices to suit customers.

The higher the standing of the customer, and the more particular as to his wines, the higher the price to satisfy him as to quality. The most celebrated European dealers were given as to the source of supply, and European dealers took it known, are not much behind, but much in advance of the American trader, in their adulterations.

He quotes an advertisement from a chemist in New York, who is "now prepared to furnish the flavorings for every kind of liquor.

WARNING PLANNER.—In our climate, fickle in its gleams of sunshine and its balmy airs, as a coquette in her smiles and favors, consumption bears away every year the ornaments of many social circles. The fairest and loveliest are its favorite victims. An ounce of prevention in this fatal disease is worth many pounds of cure, for when once well seated, it mocks alike medica skill and careful nursing. If the fair sex could be induced to regard the laws of health, many precious lives might be saved, but paste-board soles, low-neck dresses, and lilliputian hats, sow annually the seeds of a fatal harvest. The suggest on in the following article from the Scientific American, if followed, might save many with consumptive tendencies from an early grave:

Put it on at once, winter or summer, nothing better can be worn next to the skin than a loose, red woolen shirt; "loose," for it has room to move on the skin, thus causing a titillation which draws the blood to the surface and keeps it there; and when that is the case no one can take cold; "red," for white flannel fills up, mats together, and becomes tight, stiff, heavy, and impervious. Cotton wool merely absorbs the moisture from the surface, while woolen flannel conveys it from the skin, and deposits it in drops on the outside of the shirt, from which the ordinary cotton shirt absorbs it, and by its nearer exposure to the air, it is soon dried without injury to body. Having these properties, red wool flannel is worn by sailors even in the mid summer of the hottest countries. Wear a thinner material in summer.—*Hall's Journal of Health.*

An editor down South has been putting up his well-water. He says: "Oh, such water! Cooler than the breath of Spring, clearer than crystal, pure as woman's heart, and sparkling as champagne." His despondent, however, from the Lighfoot-tin to the present, when he remarks:—"It is excellent to boil potatoes in."

PARSON HENDRICK.—This noble hearted son of North Carolina, who has lost his place because he dared to go for Fremont, thus spoke of the South before election:

"Elect Fremont, and mobism, terrorism and secessionism will all receive their quietus. All the elements of disunion are now united on Buchanan. His defeat will be their ruin.—There never was so good an opportunity as the present to arrest the progress of disintegration, which has of late seized the South. The election of Fremont will compel the disunionists to show their hands, and give a fair chance to count them. Their weakness will then be made apparent to all. But let Buchanan be elected, and the faction will continue to increase until it will utterly control the government or dissolve the Union."

A LONG-BOSTON HORSE. A son of Erin applied at a livery, stable for a horse to ride in a Buchanan procession. The owner told him that he had a horse, but no saddle, the saddles all having been engaged. "And it is no matter for a saddle intirely, it was the answer, "but give me a *long boiled horse*, for two of my friends want to ride behind me."—*Providence Journal.*

Major Ben Perley Poore has purchased a wheelbarrow with which to pay that bet. He is to wheel from Newbury to Boston the barrel of apples which he loses on the election in this state. "May we be there to see."—*Boston Chronicle.*

Two ladies who inhabit the region of the Five Points, were having some words together on the roadside, when the daughter of one of them popped her head out of the door, and cried out, "hurry, mother, and call her a thief before she calls you one."

The Burning of Moscow, now exhibiting at the Temple, affords as correct an idea of that terrible conflagration as we should wish to have. The whole entertainment is meritorious, and the exhibitor a gentleman.—*Portsmouth Chronicle, Sept.*

TO THE DAILY WHIG AND COURIER

Election Returns

NEW YORK, 6th, 4 P. M.

The latest returns received to-day indicate that Buchanan has carried Indiana, Kentucky and Louisiana.

Illinois.

Alton, Lake, Warren, Monroe, Henry, Kendall, Winnebago and McHenry Counties give Fremont 7258 majority—a gain of 6720.

Wisconsin.

Walworth, Rock, Grand and Lafayette counties give Fremont 4900 majority—a gain of 3500.

The State will give Fremont over 6000 majority. Three Republicans are elected to Congress.

Missouri.

Fremont.—St. Louis County gives Fillmore about 1500 majority; loss of 1500.

Jefferson City gives Buchanan 70 majority.

Franklin County, 10 towns—Buchanan 678; Fillmore 220, Fremont 63.

Warren County, 2 towns—Fillmore 30 majority.

Montgomery gives Fillmore 200 majority; also Governor vote.

Michigan.

Kalamazoo, Van Buren, Calhoun, Lapier and Oakland Counties give Fremont nearly 3000 majority.

Illinois.

NEW YORK, Nov. 6.

A despatch from John Wentworth, Chicago, to the Evening Post, says, Fremont is gaining everywhere in Illinois, and the entire republican Ticket is certainly elected.

CHICAGO, Nov. 6.

In Jefferson, Union, Pulaski, Alexander, Massic, Johnson, Pike, Washington, Perry and Montgomery, Southern Counties, Buchanan's majority is about 8330—a gain of 4000.

Macon County—Buchanan 311 majority—a gain of 400.

In Rock Island, Lee, Rock Island, Lasalle and Stephenson Counties, Fremont's majority is about 5000. Washburn, Republican, for Congress, in the 1st District, is elected by 11,500 majority.

Farnsworth, Republican, for Congress, in the 2d District, has 12,000 majority.

Lovejoy, Republican, in the 3d District, has from 7000 to 9000 majority.

Kellogg, Republican in the 4th District, is elected.

Nothing definite from the 5th District.

In the 6th District, Arnold and Brownell, Republicans, are probably elected.

In the 7th District, Morrison and Smith, (Dems.) are elected.

The Republican State ticket North of Springfield, has over 5000 majority, and in the whole State will probably be 10,000.

Louisiana.

NEW ORLEANS, 6th.

The democrats have carried this State by 1,000 to 1,500 majority.

Mississippi.

The Democratic majority in Mississippi will probably reach 10,000.

Maryland.

BALTIMORE, 6th.

The whole of Maryland has been heard from with the exception of the counties of Somerset and Worcester. Fillmore's majority is 8000. The two counties to be heard from gives the American Majority last year.

New York.

NEW YORK, Nov. 5, 12 M.—Our figures, so far as received, many of the returns being similar in character, are as follows:

Fremont 188,000, Buchanan 112,752. Fillmore 78,173. Fremont's plurality over Buchanan 75,514, which will doubtless be further increased.

Kentucky.

CINCINNATI, 6th.

Fifty-five counties in Kentucky show a democratic gain of 7000. The State will probably go for Buchanan by from 8000 to 10,000 majority.

Indiana.

The telegraph lines in Indiana are down this evening. Buchanan's majority in the State is doubtless 10,000.

Tennessee.

Buchanan's majority in Tennessee will not fall short of 6000.

Ohio.

The Republican majority in this State will probably equal if not exceed that given in October.

The Late Gale.

BUFFALO, Nov. 6.

Our papers this afternoon are filled with accounts of disasters to the Lake craft in the late gale. Some 20 schooners and barks are reported ashore or badly damaged. The brig Cumberland is reported to have been lost with all on board, and Capt. Champpey, of the schr. Simmons, arrived this afternoon, says, on the afternoon of the 4th, he saw a large steamer or propeller, lying in the trough of the sea wholly unmanageable, her smoke-pipes were overboard and a crowd of people were standing on the hurricane deck. He thinks she must have swamped before the storm was over.—Owing to the severity of the storm no wreckers could render any assistance or ascertain her name.

A Destructive Tornado.

CINCINNATI, Nov. 6.

A tornado passed over Schuyler, in this State, on the 4th inst., completely destroying the village of Littleton. The village contained a hundred buildings, exclusive of barns, and but one house, all of which were left in ruins. Several persons were injured, but none killed.

The same storm passed over the vicinity of Quincy, Illinois, doing great damage.

The "Union" Newspaper.

WASHINGTON, 6th.

Arrangements are already in progress for the reorganization of the editorial force of the Union newspaper. It is in contemplation to have no editor from the North and another from the South, in view of Buchanan's administration. Mr. Nicholson will retire on the 4th of March.

NEW YORK, Nov. 6.

The steamer Illinois, Boggs, sailed for Aspinwall with 450 California passengers.

Markets.

NEW YORK, 5th.

Flour lower and irregular—com. to fair state 5.30 a 5.45; upper lake 5.50 a 6.05; common to good Ohio none; extra Genesee 7.25 a 8.25. Southern lower and unsettled—privately 7.10 a 7.45; fancy and extra 7.50 a 8.90.—Canadian lower—superfine 5.50 a 6.60; extra 6.75 a 7.70.

Wheat lower—Genesee white 1.72; Canada white 1.65 a 1.67; Tennessee red 1.62; Ohio white 1.65 a 1.68; Illinois white 1.07; Southern white 1.58 for choice; upper lake spring 1.30 a 1.37; Milwaukie club 1.42 a 1.45 Grain firmer.

Corn lower—mixed 79 a 71½; no white or yellow.

Pork lower, closing heavy—mess 20.50; prime 18.00.

Beef steady—country mess 8.50 a 9.50; prime 6.00 a 7.00; repacked Chicago 13.50 a 14.00.

Coffee heavy—Rio 9¾ a 11¾.

Sugar firm—Muscovado 9 a 11; Havana 10¾.

Molasses scarce.

MONTREAL, Nov. 6. A terrible hurricane passed over this city last night, tearing down fences, chimneys &c., doing much damage to sewers, buildings, &c. The steamer Prince Albert from St. Lambert, was driven on St. Helens Island. The passengers received every hospitality from the garrison. Much damage was done in exposed parts of the country.

SAVANNAH ACCIDENT. On Sunday evening, just at dark, as Major Joseph Mason was riding in Pleasant street, near the corner of Temple street, he was thrown from his buggy by coming in contact with a carriage driven rapidly in opposite direction. He fell upon his left side and shoulder and though badly hurt, was able to walk to his house in Monument street, where an examination by Dr. Foster revealed a bad fracture of the left shoulder. It is doing well, though the injury is a serious one.—Savannah Mail.

A LONG CORD.—The conductors of the ship Adriatic, invented by Mr. Alden of the Novelty Works, New York, coil the steam pipe of twenty-one miles of brass tubing, through which cold fresh water is made to pass constantly by two pumps. The condensed steam is thus led back into the boiler in a hot state, so that the coiling power of the water passing through the pipe must be nearly the same as if it were mixed with the steam in fact.

DeGuinon's Improved Non-Explosive Camphene & Fluid LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine, for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the only sure prevention against explosion from Camphene and Burning Fluids, being made of the most durable materials, not subject to accident from breakage or corrosion—will burn freely—without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved after four years trial, to be the best Lamps in use, giving universal satisfaction and proving perfect safety.

These Lamps will be sold at wholesale or retail, as low as the ordinary Camphene and Fluid Lamps, by J. S. HICKER, No. 19 West Market Square, Bangor, Me., dealer in Lamps, Coins, and Crockery Ware.

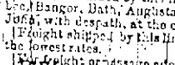
California Steamers,

CARRYING THE MAILS, SAILING FROM PIER No. 1, North River, foot of 5th and 6th Streets, Jersey City.

Greatly Reduced Prices—150 lbs. Baggage Free

Through Tickets, including transit of the Isthmus, via Panama R. R.



By order of the Postmaster General, the United States Mail Steamers will hereafter leave regularly for New York direct to Aspinwall, on the 4th and 20th of each month.

Passengers are landed at the Railroad Depot at Aspinwall, and forwarded across the Isthmus in Railroad Cars, *without any extra expense.* They are the only ones that pass over the Road, stopping only at Gatun, Barbacoas, and Cruces.

Transit, made in four hours, entirely by daylight, thus avoiding the great exposure to night in open boats to fever and ague, and 200 miles of dangerous navigation, every trip, avoided.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on the arrival of the Atlantic Mail and passengers, thus avoiding passengers being detained at Panama.

Passengers must be furnished by one of the Clerks of the Company with a ticket, or receipt, or they will be refused a passage. Tickets and Certificates can only be obtained from the authorized Agents of the Atlantic and Pacific Mail Steamship Companies in the city.
